Contents

List of Figures

1 Introduction

People have dreamed of AI for thousands of years
Logic and heuristics
Computational neuroscience approach
Briefly discuss Numenta and CLAs

2 Time Series

Motivate the problem, time series are everywhere
Talk about ARIMA models

3 Hierarchical Temporal Memory

3.1 The Neocortex

Overview of the neocortex
Pyramidal Neurons

3.2 Hierarchical Temporal Memory

Sequence memory - SDRs and transitions
Variable order sequence memory - cells per minicolumn

4 Literature Review

Does anyone know if its able to do this?
It has been used in applications, look there

5 Experiment Design

Hardware and language
Numerical analysis-Epsilon comparisons
Wrote wrapper and swarming utility
LOTS of swarming

6 Results

7 Further Work
